

Spring Forward, Fall Backward?

The upcoming daylight savings time change notwithstanding, it seems like many of the serious stock market setbacks occur during the fall months. So what does this fall season have in store for us? If you are curious about the state of the world economy and how it translates into your investment decisions, then we invite you to **get some direction** by joining us for a timely discussion on the current economic and financial environment.

Information is power.

In today's market, you need serious, quality information and a **clear vision for the future**. Be proactive by educating yourself on the forces currently at work in the financial markets that affect your personal and business finances.
